SUMMARY

Experienced Node.js Developer skilled at creating strong backend solutions and ensuring project success. With a solid background in software development, I improve systems, make processes smoother, and deliver excellent results in dynamic environments.

EXPERIENCE

NodeJS Developer

Hamilton Web Service 📅 08/2023 - Present 📍 Ahmedabad, Gujrat

Hamilton is an international Technology and Management Consulting Group known for its rapid development and innovative solutions. As a Backend Developer, I build, deploy, and maintain internal web applications to meet high standards.

- Optimized back-end microservices, cutting service request time from 700ms to 150ms.
- Improved data storage and retrieval efficiency using MongoDB and MySQL.
- Implemented migration strategies in Node.js for seamless data transitions and system upgrades.

Software Developer

Explore Wonders 📅 06/2022 - 08/2023 📍 Indore

At Explore Wonders, I worked as a Software Developer, where I was responsible for developing, and maintaining web applications. Worked on multiple projects, including an application named **Talabat**. This application was designed to capture, control, and automate the restaurant's queuing (waiting list) and food ordering process. Utilized technologies such as Node.js, MongoDB, Express.js, and Postman for development.

Backend Developer Internship

FunctionUp 📅 01/2022 - 06/2022 📍 Bangalore

Gained hands-on experience in working with technologies such as Nodejs | Expressjs | Reactjs | Redux | MongoDB | MySQL Developed a solid understanding of backend development principles, Database management, and RESTFUL APIS. Successfully completed assigned projects within set deadlines with a collaborative team of developers

CERTIFICATE

D.C.A.(MS-OFFICE, INTERNET & TALLY ERP WITH GST)

Saurabh Institute Technologies , Kanpur

CCC Course

National Institute of Electronics & Information Technology

EDUCATION

B.A

Chhatrapati shahu ji maharaj univercity Kanpur

📅 06/2018 - 07/2021 📍 Kanpur

SKILLS

Backend development with Node.js, Express.js, and NestJS

Understanding of databases: MySQL, MongoDB, and PostgreSQL

Proficient in development tools: Postman, Swagger, Git, and GitHub

Hands-on experience frontend frameworks: React.js, Bootstrap

Knowledge of cloud platforms: AWS S3

Payment Gateway Integration

Knowledge of REST APIs

Proficient in JavaScript

PROJECTS

Muzy (live-streaming Application)

📅 08/2022 - 12/2023

Muzy is a platform where users can create virtual Bands, enjoy live-streaming performances, purchase event Tickets, and book personal events. Additionally, users can subscribe to various plans. Managed backend development for user application and admin panel independently. Integrated features like event booking, wallet systems, and payment gateways.

Technologies Used: Node.js, Express.js, AWS-S3, MongoDB, Firebase, Agora, Tap Payment, Swagger.

Build IT (HomeCraft Network)

📅 01/2024 - 06/2024

Build IT is a construction and home modification app connecting users with vendors for services like landscaping, painting, homemaking, and interior design. Users can create budget quotations, which vendors can accept. Vendors manage projects through their sales teams and assist with large-scale projects. Users can contact vendors via social media and select them based on categories. Independently managed the backend for user, vendor, admin, and sales panels. Integrated features like booking quotes and vendor follow Up.

Technologies Used: Nodejs, Expressjs, MySQL, Firebase, AWS-S3, Micro Services, Swagger.
